

# Boccia

This article is part of a series produced by the British Council to help you learn English and learn about different Olympic and Paralympic sports.

What do you know about the paralympic sport of boccia?

## FACTS

### Boccia – Portuguese practice makes perfect?

You might not have heard of boccia but they have in Portugal. It is the only country to have won medals in boccia at every Paralympic Games since the sport was introduced in 1984. Since then the Portuguese have won eight gold medals, nine silver medals and five bronze medals.

traditionally not so popular, so why has Portugal had so much success in boccia at the Paralympic Games?

One theory is based on the old saying 'success breeds success'. Boccia was only introduced into the country in 1983, and yet the following year Portugal won the mixed team event at the Paralympic Games in New York.

In France and Italy it is common to see games similar to boccia, such as boule and bocce, played in any open space in villages and towns. In the United Kingdom and Commonwealth countries lawn bowls clubs are common. In Portugal, however, games of this type are

Soon afterwards boccia began to be introduced into physical education classes. Exhibition games were held in many places throughout the country. The game has continued to grow in popularity and nowadays it is one of the most popular Paralympic sports in Portugal.

## ACTIVITY

Decide if the following statements about the text are true or false.

2. It is common to see boccia played in France, Italy and the UK.		
3. Games like boccia have traditionally been played a lot in Portugal.		
4. One theory suggests that because the Portuguese won a medal in 1984 they went on to win more medals.		
5. More and more people in Portugal learnt about boccia after 1984.		

## RULES FOR BOCCIA

### What is it?

Boccia is a sport which is similar to games such as bowls and pétanque. The sport has been specially adapted for athletes with a disability.

The aim of all these games is for athletes to get a number of balls as near as possible to a target ball.

### Who can participate in boccia at the Paralympics?

Boccia is open to athletes with cerebral palsy and other conditions that affect muscle control and movement. All athletes compete in a wheelchair.

### Classifications

BC1: Athletes with cerebral palsy who can project the ball with minor assistance.

BC2: Athletes with cerebral palsy who do not need assistance.

BC3: Athletes with severe cerebral palsy who need to use a ramp.

BC4: Athletes who have a condition other than cerebral palsy.

### How is it played?

- Athletes propel the ball towards a white target ball, known as the 'jack'.
- The closest ball to the jack wins.
- Men and women compete together in team, pairs and individual events.
- Each match has different stages called 'ends'.
- Each player, pair or team gets six balls in each end.
- Individual and pairs matches have four ends.
- Team events have six ends.
- When each 'end' is finished, the athlete (or team) whose ball is closest to the jack scores one point.
- The athlete also receives another point for every ball that is nearer to the jack than the opposition's closest ball.
